Fire Drill Report

Facility Name: Proteus laboratories

Address: 18069 Ngungunyane str Kwa-thema

Date: 28 February 2021 Time: 14h00 Shift: day shift

Person Conducting the drill: Sibusiso Mkholo (Health and safety officer)

Drill Location and Simulated Conditions: Bophelong medical Centre

Unusual Conditions: Nothing unusual it was a sunny day.

Number of Occupants Evacuated: 11 Total time of drill: 30 minutes.

Fire Extinguishers Restored: Yes

Critique: Some staff members do not know what to do when there is fire.

Corrective action: Do more fire drill so that the staff can familiarizes themselves as to what to do when there is fire or any other emergency.

Procedure: Whenever the staff member/s hear a whistle they should drop everything they are doing and walk outside. Technical staff should try to switch off the gas then walk outside in front of the door then we count each other then walk to the assembly point at the back of the lab.
